## SELECTED PROJECTS

### Product Designer - KIET Student App, Android

Feb 2026 - Mar 2026

- Designed a centralized student platform integrating announcements, attendance, academics, and campus services.
- Simplified everyday tasks and introduced transparent permission-request tracking.
- Collaborated with an Android developer from design to launch, reaching **6,061+ users** and approximately 1.8K monthly users.

### Relay - Rent & Repair

Jun 2026 - Aug 2026

- Designed an end-to-end landlord–tenant platform to simplify rent tracking, payment verification, and maintenance coordination.
- Created user flows and interfaces for both roles, introducing clear payment statuses, repair ownership, and progress tracking to reduce communication gaps.

### Athera - Premium Furniture

Sep 2026 - 2 Weeks

- Designed a premium furniture e-commerce experience focused on product discovery, visual hierarchy, and intuitive navigation.
- Developed an interactive web prototype using Claude to demonstrate the shopping experience beyond static designs.

### Designer's Tool-Kit

Oct 2026 - 2 Weeks

- Designed and published a web-based design resource that organizes essential references and learning materials in one place.
- Focused on information architecture, readability, and intuitive navigation for quick access to useful content.
